

iCONIC 60

Large LED screen with flexible on-board studio.

Comfortably larger than most competitors' screens, the iCONIC 60 packs a large 60m² 16:9 screen into its trailer, that can be built and ready to run within half an hour of arrival onsite.

Like all iCONIC screens, the iCONIC 60 comes with on-board generator and can be operated by a single driver/technician, helping to minimise hire costs.

Our iCONIC 60 screens also carry a fully-featured broadcast suite, with multiple video and audio inputs making them well suited to more advanced multi-camera event broadcast.

Weight	-	33,000KG (without tractor)
Length	-	13,545mm
Height (transport)	-	4,006mm
Height (max)	-	11,576mm
